

Ohio IT Staff Augmentation Managed Service Provider (MSP) Program

Expertly Manage Your Workforce

Knowledge Services MSP program team takes on the primary responsibilities for managing the State of Ohio's temporary workforce including staffing process, vendors, and contractors. Utilizing the Vendor Management System, Knowledge Services Technology, dotStaff™, allows the program team to be completely transparent in the procurement and management of contractor sourcing, timekeeping, milestone, and invoicing in accordance with the State of Ohio's processes and rules.

How does it work?

The Knowledge Services MSP program team is responsible for managing the entire temporary workforce process from beginning to end.

Knowledge Services is a technology and professional services company that has been expanding the reach of professional organizations since 1994. As a certified woman-owned business enterprise (WBE), Knowledge Services has grown to be the largest government workforce management provider in the nation. With a diverse and growing team, and a laser focus on serving government, Knowledge Services is poised to help organizations serve the modern citizen through cost-effective solutions that put people first.
